

European Malignant Hyperthermia Group

ACCREDITATION CERTIFICATE

Nr. 021-QA

In compliance with the provisions of the decree of the AGM at the Brunnen meeting of June 2003 concerning the setting up of a EMHG quality assurance project, the Executive Committee of the EMHG, hereby confirms, on advice of the QA project leader, that the IVCT laboratory

MH-lab at the University of Wuerzburg

has the competence to perform the IVCT to diagnose susceptibility to malignant hyperthermia, in accordance with the requirements of the European IVCT protocol for investigation of MH susceptibility; revised latest in July, 2015 (BJA).

The present accreditation certificate is granted for a period of 5 years starting from January 4th 2020 and is issued after an on-site visit on the 10st of December 2019.
